## SEA LION

## SEAL

# Sea Lion vs Seal

## SEA LIONS:

- Ear Flaps
- Long, hairless front flippers
- Hind flippers rotate underneath to allow them to walk on land
- Bark a lot – noisy
- Like to touch each other

## SEALS:

- Ear Holes
- Short, hairy front flippers with long claws
- Hind flippers remain straight; can only move on land by wiggling on belly
- Quiet
- Do not touch each other, except for moms and pups
